Theme

During this four-day course, attendees will learn how to lead a Lean-Agile transformation by leveraging the practices and principles of the Scaled Agile Framework® (SAFe®). Attendees will also gain insights and practice how to coach programs, launch Agile Release Trains, build a Continuous Delivery Pipeline with DevOps culture, and empower a Lean Portfolio. The first two days of the course—Leading SAFe®—will provide them with the basis to teach SAFe to leaders.

The final two days focus exclusively on what it takes to successfully implement SAFe in the enterprise.

Becoming a Certified SAFe® 4 Program Consultant (SPC), and becoming a change agent, will enable attendees to coach and guide the enterprise to succeed in a disruptive marketplace and empower them to implement a Lean-Agile SAFe transformation.

Content of the training

- ▶ Leading SAFe®
- ▶ Basics of SAFe® (e.g. management and cooperation with the management)
- ▶ SAFe® Framework - effectively established within the company
- ▶ Time to market, productivity, employee motivation, quality
